Nummer und Typ	MTH-MTH-VER-VLK-QUA.16F.005 / Moduldurchführung
Modul	Qualifikation / Leitende Künstler
Veranstalter	Departement Darstellende Künste und Film
Leitung	Workshop- & Project Lead: Hayat-Hayriye Erdogan, Adrian Notz Artist-lecturers: Stefan Burger, Kevin Rittberger, Grupo EmpreZa, The Yes Men
Ort	Zürich und London
Anzahl Teilnehmende	6 - 10
ECTS	0 Credits
Voraussetzungen	Für Studierende aus anderen Studiengängen der ZHdK: Anmeldung und Anfragen bezüglich Platzzahl an: Caroline Scherr / caroline.scherr@zhdk.ch Bitte unbedingt Vorname, Nachname, Semester und Hauptstudiengang angeben, danke.
Zielgruppen	DR (Pflicht); RE, TP, BN, SC, BT, SP
Lernziele / Kompetenzen	transdisciplinary and transcultural competences getting to know avantgarde, radical design works research based development of projects development, coordination and composition of an event marathon getting to know different artistic strategies and working methods getting to know curatorial competences
Inhalte	On the occasion of the festival "Zurich meets London" Zurich University of the Arts & Cabaret Voltaire develops INSTANT CITY RELOADED, an event marathon in and around the Serpentine Gallery. Therefore we will re-evaluate and re-activate the vision INSTANT CITY by the British collective ARCHIGRAM, who were working genuinely trans-disciplinary. The questions raised by the highly anticipating works of ARCHIGRAM still or even more urgently address present issues of glob/calization, hyper-culturality, mobility, migration, information technology shifts, progress, windowing etc. - all this with reference to art, design and architecture issues. How does this relate to Zurich, the Zurich University of the Arts and the Cabaret Voltaire?  INSTANT CITY (IC) refers to an architectural vision, a concept by the British avant-garde collective ARCHIGRAM. IC was thought to be a device, an airship containing all cultural and educational resources of a mega-city, which could fly, travel to the remote areas and the cultural peripheries of a city and bring the rather marginalized inhabitants a taste of city life in a nutshell. The authors of ARCHIGRAM describe the project as a "speculative research project exploring possibilities of injecting metropolitan dynamic into other areas through temporary

events, structures, mobile facilities and information technology" (Peter Cook et al., Archigram. New York 1972).

During 3 weeks workshop we will develop ideas on infiltrating cities with performative, artistic and discursive interventions. The first step in the workshop is to first deal with the ideas of ARCHIGRAM and DADA in general and the idea of INSTANT CITY in particular. In a second step students guided by artist-lecturers will do research in the city of Zurich and find out what is worthy and attractive, interesting enough to be shipped to London. The workshop is scheduled for calendar weeks 16, 17 and 19, i.e. 18th - 29th April & 12th - 14th May. After the workshop and rehearsal period the group will travel to London. The stay in London will be in calendar week 20, from 16th - 22nd May, 2016.

The workshops will be run in collaboration with Adrian Notz, Director of Cabaret Voltaire. Artist collectives, performers and activists will be invited to work with us on getting inspiration from "Instant City" and

1) Translating the visionary, futuristic ideas of "Instant City" into own presentation medium, using very own characteristic artistic strategies and approaches,  
2) Reflecting and further developing the encapsulated ideas of ARCHIGRAM, "Instant City" with respect to Dada, the 21st century, on-going relevant discourses (t.b.d.) and the City of London.

3) Finding interesting contents in the City of Zurich to artistically transform them into transportable performances, lectures etc.

4) Travel to London, set-up of event space, little interventionist actions, main event marathon on 20th and 21st May, 2016.

The artists, who are invited are The Yes Men, Grupo EmpreZa, Kevin Rittberger, Stefan Burger

More Information on INSTANT CITY RELOADED will be available end of January 2016.

Termine

(Grobe Richtwerte, konkrete Daten folgen anfangs FS2016)

09.05. - 15.05.2016

16.05. - 22.05.2016 (LONDON)
