| Inhalte | Music collages are common formats in contemporary dance and theatre events. Often the possibilities are used only to a limited extent. A deeper insight into existing works in the past and present as well as practical work with music collages and their manifold possibilities from different artistic perspectives in their sound and spatial staging is the subject of this interdepartmental event. Together with the Swiss choreographer and dancer Anna Huber, the musicologist and musical performer Steffen A. Schmidt, interdisciplinary study groups will develop their own music collages and performative projects. |
