Inhalte	<p>This module looks at the mediality, history, and architecture of the portfolio as a powerful tool of (re-)presentation and reflection in artistic practice. Starting from a theoretical investigation on modes of distribution and dispersion in the field of art, we will discuss and apply strategies, techniques, tools to assemble a compelling dossier in a workshop-like environment. We will take into account different levels of artistic experience, aims, and biographies. To enhance our understanding of this artifact, the portfolio lab integrates several guests – experienced art professionals such as curators, designers, gallerists. In a second step, we will look at how to speak about one's work. The module furthermore provides an encounter with works by inspiring contemporary artists.
