ECTS	2 Credits
Voraussetzungen	None
Lehrform	Seminar
Zielgruppen	2. Semester Master of Arts in Design, Vertiefung Interaktion
Lernziele / Kompetenzen	Students - explore the constitution of the human self on a technological, cultural, and personal level; - critically engage with the subject and its cultural manifestations; - learn academic working methods in dealing with texts (reading and writing).
Inhalte	The seminar highlights technological developments in artificial intelligence, human-machine interfaces, and implant technology that blur the boundaries between human and non-human. The new technologies of the self no longer require us to work on ourselves, but have become instrumental and have turned humans into technological selves. In this seminar we will explore these themes and phenomena, as well as their aesthetic manifestations in texts, films, images, and artifacts.
Bibliographie / Literatur	Literature will be announced in the Seminar.
